The goal of this conference is to provide breadth and depth of clinical knowledge for providers who desire comprehensive breastfeeding education. Each session will focus on evaluation and management strategies in a case-based format so that participants leave with the knowledge and skills to manage a wide variety of breastfeeding problems that they will encounter in a typical primary care practice.

Instructors

All instructors are experienced breastfeeding medicine providers, with a variety of backgrounds in breast surgery, family medicine, pediatrics, pediatric intensive care, obstetrics/gynecology, neonatology and hospital medicine.
