The host asks that each attendee print the lecture notes in their clinic. If attendees are unable to print in their clinics related to the pandemic response, the lecture notes will be provided for them. The OBC course consists of 8 lectures. A PDF document containing pictures of all of the slides in the 8 PowerPoints is available – it is about 80 pages. This document can be downloaded from your dashboard when you login at the IABLE website: <https://lacted.org/my-account>. We recommend that you use the printed lectures for taking notes during the course. You can [login to your dashboard](#) using the email or username and password that you used when you registered for the course. An email with login instructions was sent upon registration. After logging in, your lecture notes can be downloaded by clicking "My Account" and then "Downloads."

Curriculum Booklet

Prior to the start of the course, the event Host will distribute a full color curriculum book to each attendee. This booklet does not substitute for the PowerPoint lecture notes. It is designed to be used as a desk reference, for individuals who are providing telephone support, or for those who provide home visitation. A small section of the curriculum book contains activities for the OBC course, so please have the curriculum book available during the entire course.
